Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/01/2006 has been entered.

Applicant's amendment dated 09/01/2006 has been received and entered. Claims 43-102 are remain pending in the application.

Applicant's arguments dated 09/01/2006 have been considered but are moot in view of the new ground(s) of rejections as follow.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 43-102 are rejected under 35 U.S.C. 103(a) as being unpatentable over Funada et al., JP 53-048542.

Regarding the above claims, Funada et al. disclose a liquid crystal display device (figure 7) comprising:

. a first substrate (3');

Art Unit: 2871

- . a second substrate (3);
- . a liquid crystal layer (2/6) driven by a parallel field (parallel with the surface of the first substrate)(see figure 7);
- . a transparent conductive material (4) formed over the second substrate.

Funada et al., however, do not disclose a thin film transistor (TFT) as well as a black matrix (BM). It would have been obvious to one skilled in the art at the time of the invention was made to convert the Funada et al. display to an active matrix type LCD (that including a TFT, BM) since it is a common practice in the art in order to improve display characteristics and obtain an LCD with a fast response.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Tuesday-Friday.
